The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Spector (4,759,937).

Spector shows edible popcorn forms that are glued together to form a larger piece. Larger pieces are formed together with smaller pieces to make a larger form.

Claim 4 is rejected under 35 U.S.C. 102(b) as being anticipated by Spector (4,759,937).

Spector shows edible popcorn forms that are glued together to form a larger piece. Larger pieces are formed together with smaller pieces to make a larger form. The pieces are glued together with a mixture of butter, corn syrup and sugar. Water is a well known as a component of corn syrup.

Claims 26-45 are allowed. Applicants arguments concerning the coplanar arrangement of the fish pieces is persuasive.

Claims 6-25 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicants argument concerning the coplanar arrangement of the fish pieces is persuasive.
